

# STEM PRO

| PART NUMBER | CUTTING EDGE | OUTSIDE WIDTH | BUCKET HEIGHT | BUCKET LENGTH | CUBIC YARD | OPENING DIAMETER | WEIGHT ESTIMATE |
|-------------|--------------|---------------|---------------|---------------|------------|------------------|-----------------|
| 5000-82     | WELD ON      | 40-5/8 in     | 27-1/4 in     | 82 in         | 0.85       | 4 in             | 830             |

## The Smarter, More Cost-Effective Solution

- Reduce labor costs—one operator replaces a crew
- Improve safety—no manual handling near blast holes
- Increase efficiency - fill more holes in less time
- Achieve consistency—accurate, repeatable results every time

## Made in USA - Rockford, Illinois

Each bucket is 100% built in-house at our Rockford, IL facility - design, machining, welding, assembly & paint - all under one roof for unmatched quality and consistency.
